Technical Requirements

- The application is deployed on a central server and is maintained by eVidya Team. All hardware and software requirements to deploy the site will be taken care by eVidya.
- eVidya can be accessed from any computer (PC / Laptop) with an Internet connection. No need to install eVidya on any local dedicated computers at the School premise.
- eVidya technical support team can help to take care of the data entry work and get all information into the system initially. Necessary training will be provided to the Admin/Staff on eVidya product.
- Individual accounts will be created for each user (for students, teachers, parents, admin etc) and the users will be given the credentials of their accounts.
- eVidya provides 24x7 Technical Support over Phone/Email. **eVidya offers to station a dedicated person for on-site support for 6 months at the School, if the School desires so.**
- School is provided with a dedicated URL and the site is customized with School name and logo so as to give the users a 'at home' feel.
- eVidya offers to build the School Web Site for FREE, if the School does not have a web site.

On-premise Custom Software vs SaaS

On-premise Custom Software

- Accessibility only within the school premise
- Can not provide access to parents / students / teachers
- Higher time, effort and cost for solution implementation
- Mostly limited on features
- Upfront payment for building or buying the software (irrespective of it is being used or not)
- Project management nightmares
- Regular software and hardware upgradation required at additional cost to replace obsolete versions
- Need local IT maintenance personal
- Required regular data backup and disaster recovery system in place
- Higher possibilities of data loss, data corruption and/or theft
- Low system availability (higher down-time)
- Low on performance
- Difficult to modify / customize the solution or add new features
- Slow on support and troubleshooting

SaaS Solution

- ✓ 24x7 access, from anywhere, anytime
- ✓ Multiple views - connecting parents, teachers, students, management
- ✓ Faster implementation
- ✓ Rich feature set as the solution has evolved over time, capturing requirements of many schools
- ✓ No installations, software licenses, hardware purchases etc
- ✓ No need to buy or license the application. Pay as per usage, only as long as you use
- ✓ No support and maintenance cost
- ✓ No fear of data loss. Data back up and restoration are taken care by the provider
- ✓ Hosted on powerful server in huge data centers with ultra speed connectivity, thus offering better response time, minimum down-time and better overall performance
- ✓ Better and faster support, service and trouble shooting (as the continuance of customer subscription is closely tied to the service quality)
- ✓ Schools can anytime discontinue the subscription and no need to pay any further
- ✓ SaaS is the latest trend in the technology space

Total Cost (TCO) – SaaS Advantage

❖ Capital savings: Software and Hardware

- ✓ No need to purchase Infrastructure Stack Software
- ✓ No expenditures on Server hardware
- ✓ No need to purchase third party tools and applications
- ✓ No software or hardware replacement needed in ongoing years

❖ IT operations savings

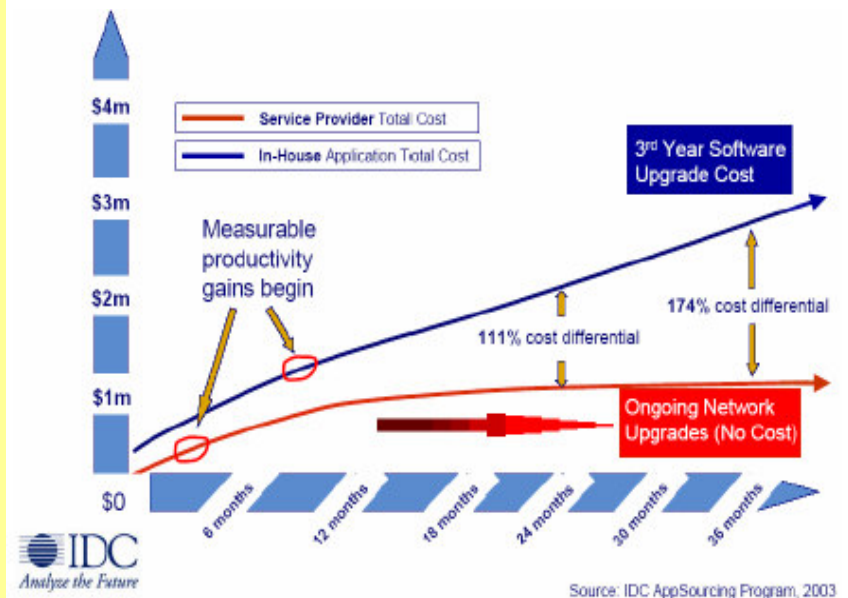

- ✓ Reduced spending on IT operations
- ✓ Reduced support costs
- ✓ No Software and Infrastructure upgrade costs
- ✓ No maintenance and training costs
- ✓ No cost of data storage, disaster recovery system etc
- ✓ Easier to adapt/customize/modify

❖ Business Operations Savings

- ✓ Savings through improved application functionality, process improvement, automation and integration
- ✓ Savings through higher worker productivity

❖ Other Intangible savings

- ✓ Reduced Risk / Project Failure
- ✓ Faster Time to Value (implementation time saving)
- ✓ Superior performance and operations
- ✓ No data loss, data corruption etc
- ✓ Easily scalable
- ✓ Better service and immediate problem resolution

TCO Comparison between SaaS and On-premise software

eVidya Licensing Model

eVidya SaaS Account

- An exclusive account is setup for the School on eVidya SaaS Installation
- Pay only an annual subscription fee (no additional maintenance fee or hardware/software cost)
- School will be provided with an exclusive URL on eVidya domain
- Exclusive database for the School, providing 100% data privacy and security
- eVidya application can be linked to the School Web site
- Custom look and feel with School name and logo on all the screens
- Fully configurable with the School settings
- Setup, configuration and initial data entry will be done by eVidya team
- 24x7 support, immediate troubleshooting
- Accessible from anywhere, anytime
- Application is available 24x7
- Provided with a support person at the School premise FREE of cost (on request)
- Additional platinum modules can be ordered anytime
- All software upgrades, new features, new versions etc made available absolutely FREE
- School can discontinue their subscription anytime and need not pay for the unused period
